### Ants Applied Data Science

August 2024 – Feb 2025

Backend Developer

Bengaluru, India

- Enhanced user management APIs by implementing robust error handling and secure JWT authentication, **reducing error rates by 35%** and **improving authentication efficiency by 25%**
- Streamlined backend workflows through MySQL integration, optimizing database performance and enhancing data management capabilities
- Contributed to the Solar DL project by delivering scalable backend solutions and enhancing performance, ensuring robust system architecture .
- Designed and implemented RESTful APIs following industry best practices, creating efficient communication channels between front-end and back-end systems

### Ants Applied Data Science

January 2024 – Apr 2022

AI ML Intern

Bengaluru, India

- Analyzed large datasets using Python to extract meaningful insights, achieving a 30% reduction in analysis time.**
- Implemented machine learning models for predictive analytics, **resulting in a 25% increase in prediction accuracy.**
- Collaborated with diverse teams to deliver data-driven solutions, enhancing cross-functional cooperation and project outcomes.
- Revised and validated models to enhance outcome prediction accuracy, ensuring reliable analytical results.

## Personal Projects
